WHY DOES THE INDIAN BUSINESS ECOSYSTEM NEED EGNIOL?

While big companies grow with expert board advice, small and medium-sized businesses often miss out, relying on accountants instead. This can hinder their growth and even lead to early closure due to a lack of expertise. Despite government efforts to support these businesses with loans, grants, and events, many still find it hard to access these resources. We make it easier by guiding businesses to government aid and offering personalized advice, aiming to smooth their path towards growth and support.
