EGNIOL SERVICES PRIVATE LIMITED

In January 2018, Egniol Services Private Limited began its journey with just four visionaries. Today, we've grown into a powerhouse of over 700 members. Last year alone, we achieved a stunning 174% growth, a true sign of the top-quality services we deliver.

Egniol was born with a clear mission: to help startups access the benefits offered by the Indian government's various programs. These programs aim to boost entrepreneurship, innovation, and economic growth by providing financial aid, technical support, mentorship, and subsidies.

SUCCESS STORY

Our founders noticed a crucial gap: small businesses often lacked expert guidance and missed out on government schemes for growth. Determined to make a difference, they started **Egniol** to guide startups through these programs, aiming to transform India into a hub of innovation.

Our focus is to empower Indian startups and make a tangible impact in the ecosystem. Our values are clear: **Adaptability, Growth, and Customer-centricity**. With thousands of startups served, we've played a vital role in their success stories. We don't just advise; we offer comprehensive solutions tailored to each startup's needs, from finance to digital marketing.

Our track record speaks for itself, with **over 40,000 startups** assisted and recognized for our contributions to the community. We're continuously expanding our services, adding **over 45 services** to meet startups' financial and legal needs, and venturing into marketing and analytics.

Our achievements include assisting **1,040+ MSMEs** in tax exemptions. Our commitment remains steadfast: **supporting startup growth in India to drive economic prosperity**.
